POWER

GENERAL INDEX TO VOLUME LXVI

July to December 31, 1927

EXPLANATORY NOTE

Illustrated articles are marked with an asterisk (*) book notices with a dagger (†), inquiries with a double dagger (‡). The cross-references condense the material and assist the reader, but are not to be regarded as complete or inclusive. So, if there were a reference from "Boiler" to "Stoker," and if the searcher failed to find the required article under the latter word, he should look through the "boiler" entries, or others that the topic might suggest, as he would have done had there been no cross-reference. Letters are indexed under title or subjects, general articles under writers name as well. Not all articles relating to a given topic necessarily appear under the same entries.

Following is a list of the pages included in the several numbers of the volume, by date:

July	5	Pages	1-40
"	12	"	41-80
"	19	"	81-118
"	26	"	119-156
Aug.	2	"	157-194
"	9	"	195-230
"	16	"	231-272
"	23	"	273-310
"	30	"	311-348
Sept.	6	"	349-384
"	13	"	385-422
"	20	"	423-460
"	27	"	461-502
Oct.	4	"	503-538
"	11	"	539-576
"	18	"	577-614
"	25	"	615-654
Nov.	1	"	655-690
"	8	"	691-728
"	15	"	729-768
"	22	"	769-806
"	29	"	807-870
Dec.	6	"	871-910
"	13	"	911-962
"	20	"	963-1000
"	27	"	1001-1042

Allis-Chalmers type "SSU" centrifugal pumping units *1030
Alphons Custodis Chimney Construction Co. The tallest chimney ever dynamited .. *973
American Electric, Pennsylvania Gas gets control of 533
American Engineering Co.—Data form sheet for recording a series of boiler tests *753
American Engineering Standards Committee send out hydraulic symbols proposal .. 1038
American Falls for early construction, Power unit at 226
American Institute of Electrical Engineers outlines activities for West Coast meeting 379, A. I. E. E. nominate officers for 1928 ..... *1037
American Lo-Hed electric hoist monorail .. *30
American Petroleum Institute studies conservation plan 955
American Refractories Institute issues Code on Firebrick 764
American Society of Civil Engineers—Sends engineers abroad for flood prevention study 192, Urges settlement by states .. 192
American Society of Heating and Ventilating men plan annual meeting 956, Engineers foresee eventful New York convention .. 995
American Society of Mechanical Engineers holds election, Tri-City 192, Seattle meeting papers of interest 225, Western A. S. M. E. boys meet for Seattle gathering 379, Boiler Code Committee honors C. W. Obert, past secretary 533, A. S. M. E. plans complete Engineering Index service 650, St. Louis fuels meeting a marked success 607, A. S. M. E. celebrates fiftieth birthday in 1930 763, Iron and Steel Division of A. S. M. E. launches first annual meeting *801, An inspiration and a mine of information 859, Engineers' Week 871, A. S. M. E. Week in New York *912, Paper *991, A. S. M. E. Spring Meeting at Pittsburgh, May 14-17 997
American Society of Refrigerating Engineers, Way of refrigeration saving topic at N. Y. meeting 649, Refrigerating in Queens, N. Y. topic at A. S. R. E. meeting 866, New York refrigerating men hold meeting *721
American Society of Testing Materials †497, Reports research for standards 74, A. S. T. M. Tentative Standards, 1927, †1034, Index to Proceedings of A. S. T. M. ..... †762
American Soviet trade doubled since world war, Claims 685
American Stoker Mfgrs. discuss betterment of industry 532
American Welding Society plans fall papers and exposition 269, Progress in research and application shown at welding convention *494
Ammonia purger, Conner automatic *264
Amplifier, Bethlehem torque *413
Angles, Practical method of welding galvanized iron sheet to steel *258
Anglo-Canadian Pulp & Paper Mills—Large high-pressure turbine for 611
Annunciator systems operate, How push-button—Electrical elevator signals, Annett *318
Anthracite see "Coal"
Antiques, Low 461
Anything like this in your plant? Have you *895
Arbitration in the United States, 1927, Year Book of Commercial ..... †305
Are Welding and Cutting Material ..... †343
Argentine bids on three power house installations 307
Argument, Discussion better than 370
Arizona Edison plans Gila River development 417
Arrester for low-voltage systems, New autovalve *30
Artesian wells, Maintenance of *182
Ash-handling equipment, Maintenance of .. 255
Association of Iron and Steel Electrical Engineers discuss grounding electrical equipment 954
Aswan Dam on the Nile *475
Atlantic Refining Co. reconditioned tankers. 443
Austin Mfg. Co.—Explosion wrecks boiler room *759
Automatic control pays 297

B

Babcock & Wilcox return bend wrought-steel economizer *339
Backlash eliminator, Bethlehem *154
Bagdad Land & Lumber Co.—Breaking drive belt causes flywheel explosion 306
Balance was corrected on a high-speed fan, How the *63
Ball, steel, Tightening studs with a *181
Barnaby, C. W., ends active career as old timer M. E. *456
Bartlett Hayward Co.—Hunts Point boilers burn coke breeze *350
Bay Front steam station, Lake Superior District Power Co.—Rebuilding old plant reduces coal per unit output nearly one half, Wilhelm *627
Bearing pound in an internal combustion engine? When does a Morrison *550
Bearing proves satisfactory where babbitted bearing failed, Anti-friction 1024
Bearings, Criticism of oil-engine, Hilderbrand *592
Beacon St. heating plant—Feed water for world's largest boilers receives zeolite and acid treatment *90
Bearings are still a subject of controversy, 102; Disc. 220
Bearings, Load peaks and anti-friction .. 984
Bearings replace plain thrust bearings, Roller *714
Belt conveyor carrier, Stephens—Adamson "Simplex" *606
Belt conveyor idler, Link-Belt anti-friction .*149
Bengal (India) Smoke Nuisances Commission, 1926, Twenty-first Annual Report of the ..... †305
Bethlehem backlash eliminator *454
Bethlehem torque amplifier *413
Biddle, James G.—"Meggar" tester reads ground resistance directly *338
Bids on tunnel for Columbia Power project, To Call 226
Bird & Son—Pulverized coal installation saves $6,300 in six months, Roberts .. *540
Boedtcher, Franz A.—Interlock switch for use on elevator doors *758, Ball-bearing hanger for elevator doors *800

BOILERS

—Air leaks in boiler settings, Stopping Hobart 140
—Automatic control regulates seventy-two boilers as a single unti, Ingalls *770
—Blowdown in proportion to moisture content of steam, Automatic boiler, Hughes *13, Disc. *410, 796
—Boiler Code, Committee honors C. W. Obert past secretary 533
—Boiler companies merge 867
—Boiler output for half-year 2.3 per cent under 1926 ..... *116
—Bush Terminal, New boiler plant supplies process and heating steam for .. *840
—Condensation returns, An arrangement for removing cylinder oil from *103
—Construction, Twenty years of standardized boiler 25
—Cooling boilers 709
—Corrosion in boiler drums by use of protective coatings, Retarding 107
—Czechoslovakia revises her boiler regulations 906
—Data form sheets for recording a series of boiler tests *753
—Deterioration, Causes of dangerous boiler. 948
—Dyers Sawmill—Exploding boilers kill five—Injure four 867
—Efficiencies, More about high boiler plant 376
—Equipment, Maintenance of boiler room .. 305
—Exploding boilers kill five—Injure four. 867
—Explosion at Woodstock, Illinois, Boiler, Noonan *249
—Explosion wrecks boiler room (Austin Mfg. Co.) *758
—Fan, desk, in the boiler house, The *180
—Feed by means of traps was made automatic, How the boiler .. *300, 640, *717
—Feed water and their effect on boiler operation, Impurities in, Romer 32
—Feed water for world's largest boilers receives zeolite and acid treatment .. *90
—Feed water, Pumping boiler feed 208, Disc. 680
—Feed Water Purification, Boiler, Powell .†1034
—Feed water, Report of Joint Committee on boiler, Powell 922
—Feeding of boiler compound, Simplifying the *409, Disc. *948
—Feeding of boiler compound was made uniform, How the *601
—Film evaporation applied to r-t. boiler increases capacity 75 per cent *781
—Furnace design for high efficiency, Some factors in, Bailey 918
—Furnace for return tubular boilers? What is the best type of *301
—Furnace operation, The effect of water-cooled walls on, Wohlenbergand Brooks 35
—Furnace temperatures with natural gas .. 1027
—Furnaces, Water-cooled, Leitch *129, Edit. 142
—Gage glass cutting 411, 602, 949, 988
—Gage glass showed a false level, Why the *298
—Gage, Mercury liquid level *1027
—Gas sampling tubes for boiler furnaces. *987
—Grates to burn out? Will incorrect distribution of air on an underfeed stoker cause *602, Disc. *754, *1026, *1028
—Heating boilers burn small size anthracite efficiently, Hoffman *432
—Hofft combined refuse conveyor and feeder for boiler furnaces *900
—Huntley station, Charles R., Direct-fired powdered-fuel boilers with well-type furnaces at the, Cushing and Moore .*775
—Hunts Point boilers burn coke breeze *350
—Hydrostatic tests determine boiler working pressure *324
—Inspecting advises a boiler inspector. Do your own, Lyons *282
—Inspection, Facilitate boiler 750
—Inspector has an exciting experience, A boiler 754
—Kewanee Illinois Boiler Co. sells plant .. 686
—Makeup, Sources of evaporated 445

GENERAL INDEX TO VOLUME LXVI

July to December 31, 1927

EXPLANATORY NOTE

Illustrated articles are marked with an asterisk (*) book notices with a dagger (†), inquiries with a double dagger (‡). The cross-references condense the material and assist the reader, but are not to be regarded as complete or inclusive. So, if there were a reference from "Boiler" to "Stoker," and if the searcher failed to find the required article under the latter word, he should look through the "boiler" entries, or others that the topic might suggest, as he would have done had there been no cross-reference. Letters are indexed under title or subjects, general articles under writers name as well. Not all articles relating to a given topic necessarily appear under the same entries.

Following is a list of the pages included in the several numbers of the volume, by date:

July	5	Pages	1-40
"	12	"	41-80
"	19	"	81-118
"	26	"	119-156
Aug.	2	"	157-194
"	9	"	195-230
"	16	"	231-272
